The topic for the 2023 Creative Lecture Competition is STUDENT CONNECTEDNESS AFTER THE PANDEMIC. PROMPT: Students who feel connected to their schools, their teachers, and their classmates are more likely to earn higher grades, graduate on time, and feel better about themselves. That feeling of connectedness stopped when schools closed in 2020 at the start of the pandemic, and students abruptly were isolated from their friends and teachers. An April 2022 survey by the Centers for Disease Control and Prevention (CDC) found that approximately one in three high school students experienced poor mental health (most of the time or always) during the COVID-19 pandemic.						
Educators Rising Moment	None	Monday, February 6th	Speech 3-4 min and Q+A 5 min	1	Up to 5 (4x6) Index Cards one sided; Lectern and Microphone optional	~10 Min Total
